***We are the faces of PlaveKoch. A new kind of law firm.***

We borrowed a page from our clients' entrepreneurial playbook and started our own business with a vision to break away from the routines and limitations of large law firms. The freedom to take a fresh approach has been exhilarating – and judging from the results, our enthusiasm has been contagious.

We have become one of the deepest franchise law practices around. But growth hasn't changed our flavor.

***Franchise Law with Zing.***
